EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gerard McGowan, Jr. on September 10, 2004.

The application has been amended as follows:

- Please cancel non-elected product claims 9 and 15.

(see restriction requirement, below).

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 5-6, 12-14, 19 and 21-23, drawn to a method of producing a food product by adding both viable and non-viable *Lactobacillus* bacteria, classified in class 426, subclass 61.
- II. Claims 9 and 15, drawn to a food product containing non-viable *Lactobacillus* bacteria, classified in class 424, subclass 93.45.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product can be made by another materially different process, such as the addition of viable bacteria alone, and subsequent pasteurization or another protocol to render all bacteria non-viable.

Art Unit: 1761

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Gerard McGowan, Jr. on September 10, 2004, a provisional election was made without traverse to prosecute the invention of Group I, claims 1, 5-6, 12-14, 19 and 21-23. Claims 9 and 15 are withdrawn from further consideration (and now canceled) by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Keith Hendricks whose telephone number is (571) 272-1401. The examiner can normally be reached on M-F (8:30am-6pm); First Friday off.
